

### Hazard Training Verification Statement

I hereby acknowledge that I have fully completed the Hazard Training Video for North American Mine Sites. I have been instructed regarding the hazards outlined in this training and will act in accord with all applicable safety and operational policies and procedures as a condition of my being permitted access to this operation.

I understand that if I have questions or concerns at any time about the site hazards described in this training video or the site specific pamphlet, I will consult with the Health and Safety staff facilitating this hazard training video presentation for clarification or guidance.

I realize that this hazard training is not a substitution for completing the 24-hour New Miner training. I acknowledge that I have received the 24-hour training, or that my duties do not necessitate the need for the training. For more information about training requirements, refer to the [MSHA Training Requirements for Contracts & Visitors](#) document on the Department of Occupational Health & Safety site.
