Questions? Or need
more information call:
Environmental Services
928 865-6000

Please notify Environmental Services at least 72 hours in advance of any spray painting or abrasive blasting project that is planned to commence on site.

Paint products and application method must be approved by Environmental Services prior to paint project execution. Abrasive blasting media and control methods must be approved prior to abrasive blasting projects. This should be done using the MOC process.

Except for architectural and spot painting, a spray painting log must be filled out for all painting activities by the requestor. A log can be obtained from the Environmental Services from the Air Quality Group.
