

Migratory Bird Mortality

Significant Risk - Migratory bird mortality within 100 yards of water bodies.

Potential Consequence - Multiple non-permitted migratory bird mortalities results in enforcement action.

Controls We Use

Documents we follow:

- BMP 802
- Avian Protection Plan
- Management of Change
- Bird Hazing Program
- Work Instructions for tasks undertaken

Engineering controls we use:

- Propane Cannons
- Hand Held Launchers
- Bird-Avert Radar System
- Screecher System
- Skimmers
- Monofilament
- Sumps
- Root Cause Analysis

Monitoring, Inspections and Maintenance we conduct:

- Area Inspections
- Avian Protection Plan Monitoring
- Hydromet & Tailings PMs, Operation Monitoring

Training we receive:

- Annual Enviro Training
- Tailgate meetings
- Supervisor Bootcamp Training
- New hire and/or site specific training
- Work instruction training
