

# ENVIRONMENTAL MONTHLY GREEN SHARE

## Morenci Waste Handling Used Rag Management BMP 316

**All shop towels, rags and wipes must be managed as hazardous waste as of April 1, 2014**

You may use paper, cloth or any material that suits your needs

**ALL shop towels, rags and wipes that are contaminated with petroleum, solvents or other chemicals must be placed ONLY in the designated hazardous waste drum, and not mixed with any other waste stream**

Satellite Accumulation  
Area #  
Hazardous Waste  
Solvent-Contaminated  
Rags

- We ask that you maximize the use of each rag in order to minimize waste generated to the greatest extent possible
- Be sure all towels, rags and wipes are not dripping with liquids when deposited in the collection drum
- Do not pour liquids into the collection drum
- Satellite collection drums will be lined with poly drum liners & picked up by LVI during the normal pickup route
