

## Wildlife Alert

*The Big Horn Sheep are asking you to reduce your speed while driving along the roadways.*

We are now into the SPRING SEASON which means a rise in the Big Horn Sheep population in the area

We ask that all vehicle speeds are kept to a minimum especially along the Hwy 191 corridor.

A number of sheep have already lost their lives as a result of sheep-vehicle accidents.

Sheep tend to jump into the path of traffic without warning.

***SLOW DOWN PLEASE!***

*If you do encounter an accident with the Big Horn Sheep or other wildlife contact Environmental Services at 865-6000, Spill Hotline 865-SPIL (7745), or Security on-call.*
